## To Whom It May Concern

This is to wish 'Ghumante Yuwa' a fruitful journey in its endeavor of starting 'La Garau' a youth led initiative to tell story and bridge the gap between tourism industry and Nepal's youth through mobilization of digital technology and innovativeness. May their initiatives in promoting Nepal's tourism among the youths be successful.

Any needful help and support extended towards their initiatives will encourage them to continue working and creating new avenues for youth and tourism. Let's support youth for their startups.
